Regional Municipalities

Only Rain in the Storm Drain

STORM Annual Report: FY 2012 (July 1, 2011 – June 30, 2012)

Formation of Not-for-Profit Organization

STormwater Outreach for Regional Municipalities, known as STORM, is a regional organization promoting stormwater quality education within the greater Phoenix metropolitan area. STORM was founded in 2002, in response to federal regulations requiring certain municipalities to implement measures to educate the public on ways to protect the quality of stormwater runoff. The organization consists of 22 paid members.

In December 2005, STORM filed for not-for-profit status with the Arizona Corporation Commission. The trade names "STormwater Outreach for Regional Municipalities (STORM)" and "STORM" were filed with the Secretary of State. STORM officially became a not-for-profit charitable organization in February 2006. This status allows STORM to operate as a charitable organization and enables tax deductible contributions to promote stormwater pollution prevention. STORM's existing Operations Plan was modified and incorporated as the organization's By-Laws in February 2007 with further modification and adoption at the annual corporation meeting in June of 2008.

Membership in STORM

STORM recognizes two categories of membership: municipal and affiliate members.

Municipal membership is open to Municipal separate storm sewer system (MS4) owners required by Arizona Department of Environmental Quality (ADEQ) to have an Arizona Pollutant Discharge Elimination System (AZPDES) municipal stormwater permit. To effectively reach residents and create a regional message, municipal membership in STORM is limited to MS4 owners within the greater Phoenix metropolitan area. Based on the 2010 Census, approximately 3.8 million of the state's 6.4 million residents live in the greater Phoenix metropolitan area, providing a wide audience for regional education efforts. Representatives from other permitted MS4s located throughout Arizona are welcome to attend meetings and access resources and information generated by STORM.

Affiliate members are other jurisdictions or organizations that the STORM municipal members agree to include as affiliate members. The organization is governed by the municipal members, and as such, affiliate members are not allowed to vote on formal decisions made by the organization, but are strongly encouraged to be actively involved in monthly meetings and to take part in activities/events sponsored by STORM. Affiliate membership is not limited geographically to the greater Phoenix metropolitan area.

STORM elects a management board annually to help organize and guide operations. The FY 2012 board consisted of five members elected by consensus of the municipal members for a fiscal year term: chair, co-chair, fiscal agent, secretary, and director-at-large. During FY 2012, STORM Board Members were:

- Chair: Loren Kelly, City of Surprise
- Co-chair: Raymond Rees, Town of Fountain Hills
- Fiscal Agent: Michelle Wilson, City of Glendale
- Secretary: Dave Verhelst, City of Chandler
- Director-at-Large: Jessica Koberna, Town of Gilbert

The Chair is responsible for facilitating all STORM meetings and acting as the lead informational point of contact for the STORM organization. The Co-Chair assists the Chair as needed in facilitating STORM meetings and disseminating information about the organization. The Fiscal Agent is responsible for providing and coordinating the collection and management of fees, other revenue and expenditures for the STORM organization. The Secretary is responsible for creating and distributing monthly meeting agendas and meeting notes. The Director-at-Large may assist the other Board members as needed and provides a fifth vote to prevent ties during a vote by the Board members.

The annual membership fee for municipal members is based on population from the 2000 Census, and a flat fee was established for affiliate members:

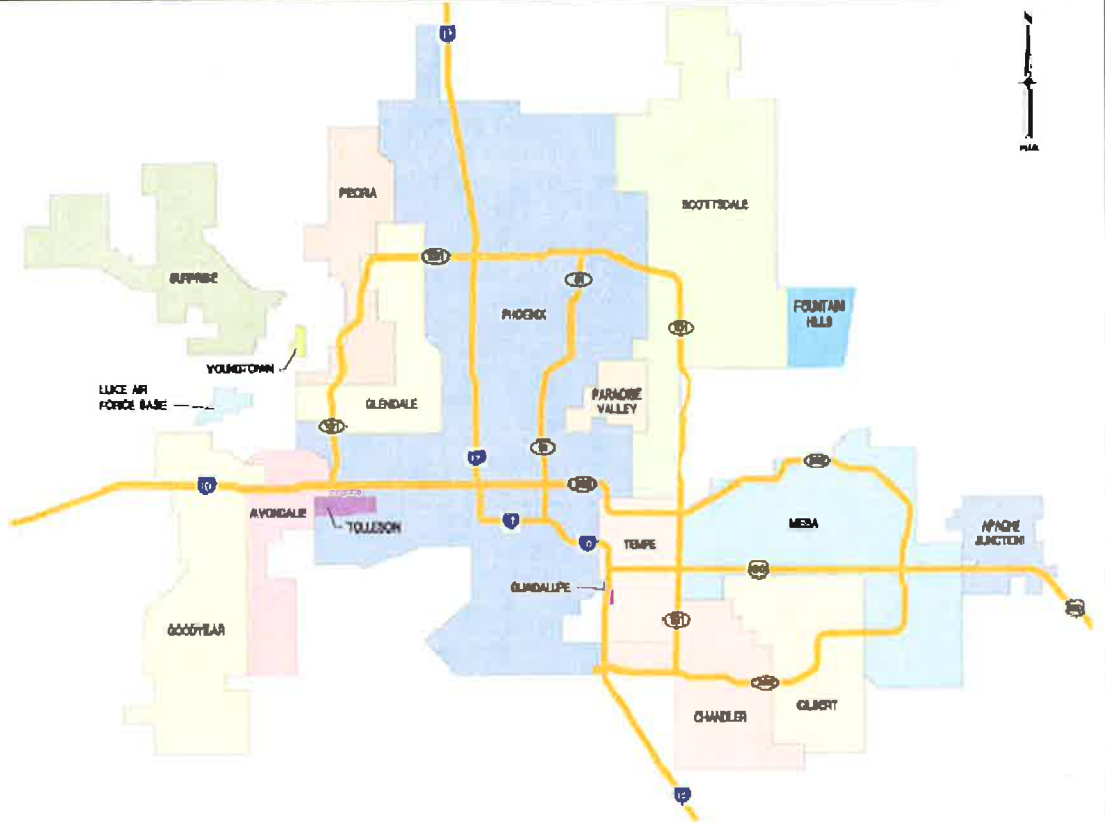

2000 Census Population	Annual Membership Fee
0 – 25,000	\$1,000
25, 001 – 50, 000	\$1,500
50, 001 – 100,000	\$2,000
100,001 – 250,000	\$2,500
Greater than 250,000	\$5,000
Affiliate Members	\$1,000

During FY 2012, STORM's 22 members included 6 Phase I MS4s, 14 Phase II MS4s and 2 affiliate members. STORM's current membership promotes stormwater pollution prevention to a large area of greater metropolitan Phoenix as indicated by the outlines of member communities in the following figure. Additional information on membership requirements is detailed in STORM's bylaws.

During fiscal year 2012, participating municipalities, affiliates and sponsors generated \$41,053.43 through membership fees. A variety of in-kind contributions were made to this organization, including all member staff time. Without overhead or administrative costs involved, funds are used almost exclusively for program implementation activities. A 2012 financial summary is provided in Attachment A.

STORM Members – Fiscal Year 2012

Arizona Department of Transportation (ADOT)
 City of Apache Junction
 City of Avondale
 City of Chandler
 Town of Fountain Hills
 Town of Gilbert
 City of Glendale
 City of Goodyear
 Town of Guadalupe
 Luke Air Force Base
 Maricopa County (unincorporated area)
 City of Mesa
 Town of Paradise Valley
 City of Peoria
 City of Phoenix
 City of Scottsdale
 City of Surprise
 City of Tempe
 City of Tolleson
 Town of Youngtown
 Western Chapter – International Erosion Control Association (Affiliate)
 Flood Control District of Maricopa County (Affiliate)

Why Become a Member?

The traditional approach to public stormwater education and outreach is for individual communities to work independently. STORM encourages a new perspective at a regional level to improve public outreach and education. Members meet monthly to discuss ideas, gather information, and share results of stormwater management tools, techniques, programs, and initiatives.

Benefits of this collaborative effort include:

- Increased public awareness of the impacts of stormwater pollution
- Shared information and experiences
- Pooled financial resources
- Protection of the environment, and
- Improved quality of life.

Communities can realize a great economic benefit from their membership investment. For a relatively small contribution, members receive a significant return in public outreach and education, much more than they would have gained working independently.

Membership in STORM also provides increased buying power that helps achieve bulk pricing on stormwater pollution awareness promotional items. Additionally, the ability to cooperatively apply for grants and other financial assistance helps further the common goal of public education to reduce surface water pollutants and ultimately improve water quality at a regional level.

Monthly Meetings

STORM generally meets once a month to make decisions and to strategize on better methods to educate the public about stormwater quality and program requirements. Meeting minutes are posted on STORM's website under the "Meetings" section of the "About Us" link. <http://www.azstorm.org/meetings/>

STORM generally meets the fourth Tuesday of each month at the Flood Control District of Maricopa County facility at 2801 West Durango, Phoenix, Arizona. STORM does not meet during the month of December due to Holiday conflicts and vacation scheduling.

STORM's Key Accomplishments

The success of STORM is based on the synergy of bringing together resources, ideas, pooled funds, and talent of numerous municipalities and agencies to produce a regional education and outreach program. The accomplishments of this collaborative effort include:

"Only Rain in the Storm Drain"

STORM member agencies continued to express the consistent message of "Only Rain in the Storm Drain". This slogan is easily understood and clearly communicates the basic message of keeping pollutants out of the storm drain system. This message was communicated through STORM's English and Spanish web site, storm drain markers placed in various member communities, display boards, and promotional items.

STORM Web Site

STORM's web site, www.azstorm.org, promotes stormwater pollution prevention. It provides residents with direct links to their specific communities so they can receive individualized information and provides summaries of stormwater regulations. A kid's page was developed to further expand the community information sections. STORM initially contracted with a website consultant to develop this web page. STORM has historically paid hosting fees to the consultant to keep the page active and oversees the operations of the website. STORM members maintain the information that is disseminated on the website and select members have administrative access in order to make minor changes as needed. A summary of the web site activity during fiscal year 2012 is included below.

Summary of STORM Web site Activity – FY 2012

Month	Unique Visitors	Number of Visits	Page Views
July 2011	173	203	510
August 2011	199	267	612
September 2011	176	206	426
October 2011	159	193	494
November 2011	178	202	483
December 2011	153	163	332
January 2012	206	237	425
February 2012	154	176	427
March 2012	170	189	416
April 2012	247	320	787
May 2012	233	273	631
June 2012	184	227	535
Total FY 2012	2,232	2,656	6,078

During Fiscal Year 2010, STORM members redesigned the website to update the information and look of the website. A consultant was hired in March 2010 to redesign the website and the completed website went online in May 2010. The cost of the website redesign was \$2,200. STORM also changed hosting companies, saving approximately \$525 per year in hosting fees. The new site is very user friendly and contains more detailed information on how to reduce stormwater pollution, public education campaigns completed by STORM, Kid's Corner information, and stormwater permit requirements. The new website went into operation on June 9, 2010 and is updated as needed.

Below is the home page of the newly designed website:

Display Boards

Display boards for use at community outreach events have been previously developed illustrating the difference between sanitary sewer systems and storm drain systems and provide information on ways residents can limit adding pollutants to stormwater. These display boards are available for use by STORM members at local events. More from the display boards can be seen in Attachment "B"

A Unified Outreach Reporting form is used by members to document when and where the display boards have been used. The reporting form allows STORM to more accurately determine the audience distribution, size, and impact to the audience where the banners are displayed. Members are asked to complete and submit these forms (after the fact) for this fiscal report. Copies of member's reporting forms are provided in Attachment "C".

Table Banners

In FY 2010, STORM purchased materials and the Town of Fountain Hills printed 6 large vinyl stormwater table banners for use at public events. The banners are 6 foot by 2 foot and can be displayed vertically or horizontally. They depict the STORM name, logo, and website, Storm Drain Dan and/or the phrase "Only Rain in the Storm Drain."

Promotional Items

Various promotional items have been previously developed with STORM's logo, website address, and/or mission statement. These are made available to members to distribute at local events. STORM expended \$9,340.22 on promotional items for FY 2012. Additionally, STORM had some promotional items left over from FY 2011 that were used during this fiscal year. Promotional items available for distribution during FY 2012 included:

1. A new program was initiated in 2008 STORM called "Bags-on-Board". This project was aimed at reducing stormwater pollution from canine feces. STORM provided two local pet adoption agencies small containers holding plastic bags intended for proper collection and disposal of pet feces. The small refillable containers can be fastened to pet leashes. The Bags-on-Board have been a very popular item at events, therefore, in FY 2012 STORM expended \$4,777.60 to purchase an additional 2,500 "Bags-on-Board" promotional items for distribution at events.

2. STORM printed Storm Drain Dan Episode 1 educational coloring books in FY 2012. The books are printed with both English and Spanish narrative. STORM expended \$4,562.62 for printing 10,000 half-size (8½" x 5½") books.

3. STORM developed a stormwater brochure with tips for preventing stormwater pollution during FY 2009. STORM expended \$1,196.47 for printing of 10,000 additional brochures in FY 2010. STORM had brochures left over from FY 2010 for distribution in FY 2012.

4. STORM developed a construction brochure with tips for preventing stormwater pollution associated with construction projects during FY 2010. STORM expended \$1,196.47 for printing of 10,000 construction brochures in FY 2010. STORM had brochures left over from FY 2010 for distribution in FY 2012.

STORM created a Unified Outreach Reporting form to be used by members to document when and where promotional items are distributed as well as the quantity distributed. This will allow STORM to more accurately determine the audience distribution, size, and impact to the audience where STORM promotional items are distributed. Members were asked to complete and submit these forms (after the fact) for this fiscal year report. Copies of this form are provided in Attachment C.

Movie Theater Campaign

STORM's FY 2012 movie theater campaign ran from November 18, 2011 to January 5, 2012 (7 weeks) to correspond to the winter rain season. The digital advertising slides ran for 15 seconds on two occasions before each movie, for a total of over 64,000 times. The slides were shown at 7 AMC theaters throughout the Phoenix metropolitan area, showing on 131 movie screens averaging 5 movies per day. That attributes to 655 movies per day, 4,585 movies per week and over 32,000 movies over the 7 week campaign. Based upon historical movie admission rates, it is estimated that the campaign was shown to approximately 1,183,000 people. STORM expended \$10,000 for the movie theater campaign in FY 2012.

Radio Campaigns

STORM conducted two radio ad campaigns during FY 2012. The first campaign included a PSA regarding the application of pesticides, herbicides and fertilizers and ran on 10 radio stations from September 5th, 2011 - October 23, 2011 (7 weeks). Cumulative persons reached were; 3,193,200 (age 12+), 2,865,600 (age 18+) and 1,638,800 (age 25-54). The campaign included 285 paid spots, plus 132 "bonus" spots at no charge. Community Service interviews were aired on all of the participating stations. The cost of the campaign was \$9,585.84

The second campaign included a PSA on the importance of maintaining vehicles to prevent pollution from leaking vehicles that ran on 10 radio stations from May 7, 2012 - June 24, 2012 (7 weeks). Cumulative persons reached were; 3,093,800 (age 12+), 2,775,200 (age 18+) and 1,527,400 (age 25-54). The campaign included 342 paid spots, plus 171 "bonus" spots at no charge. Community Service interviews were aired on all of the participating stations. The cost of the campaign was \$4,156.11.

The campaigns were both aired in English and Spanish.

The PSAs are posted on the website at <http://www.azstorm.org/radio-psa/>.

Construction Seminar

On April 24, 2012, STORM held the 2nd Annual Maricopa County Stormwater Construction Seminar. The Arizona Department of Transportation provided the seminar room at no charge and refreshments were purchased for approximately \$208. The seminar featured presentations by member municipalities, as well as state agency representatives regarding the AZPDES regulatory requirements unique to construction sites within Maricopa County. The seminar was very successful, with approximately 50 attendees. Presentations and handouts from the seminar are posted on the website at <http://www.azstorm.org/construction-seminar/>.

Shared Resources

Benefits of this collaborative and clearly focused effort include shared resources. Such resources include the following:

- City of Chandler's and Maricopa County's Water Runoff Models: The City of Chandler and Maricopa County has offered STORM members the use of this model for demonstrating how to prevent pollutants from entering the stormwater system.
- City of Phoenix's Storm Drain Marker Template: The City of Phoenix had previously developed a template of a storm drain marker created for use on their catch basins and has shared this template with STORM members, minimizing the cost of producing these markers to other members. During FY 2007, Phoenix re-established a contract with a local foundry to produce these markers and all members were invited to utilize the negotiated pricing structure.
- Fountain Hills had previously developed a template for wrist bands embossed with STORM's slogan "Only Rain in the Storm Drain" and was made available to members without having to endure the cost of the original casting price. STORM member municipality, the Town of Fountain Hills re-established a contract with a local distributor.
- In FY 2010, the Town of Fountain Hills printing department produced 6 large vinyl stormwater table banners for use at public events.

- **Training Program:** Prior to FY 2008, STORM members developed a PowerPoint presentation that could be utilized by each member to satisfy the training requirements detailed in the ADEQ permit. This benefits STORM members in that each community would not have to create such a program independently and also would provide a consistent message to the target audiences. The target audiences of the training program are municipal inspectors, municipal employees, and developers.
- **City of Phoenix Storm Drain Study:** The City of Phoenix conducts an annual poll of Valley residents to assess residents' knowledge of storm drain pollution. This study, and the potential to add specific questions, assists STORM in targeting particular audiences or determining success in outreach efforts.
- **Storm Drain Dan Coloring Books:** The City of Phoenix previously developed three such books related to preventing stormwater pollution. These are posted on STORM's website and are available for production to STORM members.
- **Vendor Information:** Stormwater product vendors may present a 30 to 60 minute informational session to the STORM members. This allows members with product knowledge to share their experiences with members that may be interested in a particular product. During FY 2012, three vendors gave product presentations to STORM.

Awards and Recognition

STORM is the first regional stormwater public education and outreach organization in Arizona. The collaborative, voluntary, and highly organized approach to disseminating information and resources to residents throughout the greater Phoenix metropolitan area has provided a distinctive and effective means to reduce stormwater pollution while maximizing the benefit of shared resources.

Previously, STORM had been nominated for the following awards/recognition:

- **Valley Forward' Environmental Excellence Award** in the category of Environmental Education/Communication - Public Sector. This award recognizes outstanding contributions to the sustainability of the Valley communities.
- **Maricopa Association of Governments' Desert Peak Award.** An award that recognizes people, projects, and partnerships that have demonstrated a commitment to regionalism.

During FY 2012, STORM was not nominated for any external awards or recognition, but internally recognizes the effort put forward by the organization's board members and other members that perform services to STORM above and beyond normal levels of participation.

Attachment A - FY 2012 Financial Summary

Beginning Balance	\$32,455.49
-------------------	-------------

Membership Fees received in FY 2012 (July 1, 2011 - June 30, 2012) for:	FY 2012	FY 2013
ADOT		\$1,000
Apache Junction	\$1,000	
Avondale	\$2,000	
Chandler		
Fountain Hills	\$1,000	
Gilbert	\$2,500	
Glendale		
Goodyear	\$1,000	
Guadalupe	\$1,000	
Luke AFB	\$1,200	
Maricopa County		\$5,000
Maricopa County Flood Control District (Affiliate Member)		
Mesa	\$5,000

household wastewater (toilet, sinks, etc.)

catch basin

sewer pipe

storm drain tunnel

Drainage Systems

Within the greater Phoenix metropolitan area, there are two systems of drainage. The sanitary sewer (wastewater) system and the storm drain system.

Sanitary Sewer

The sanitary sewer takes household wastewater, such as water from sinks, toilets, washers, etc., and carries it through a home's plumbing and into an underground sewer pipe. That water then travels to a formal wastewater treatment plant where the water is cleaned to regulated standards.

Storm Drain

Rainwater that falls on our communities travels via the storm drain system, which may include gutters, catchbasins, storm pipes, retention basins, channels, washes, etc. These systems flow to our local parks, basins and waterways without receiving any formal treatment.
